

# Touchscreen kiosk

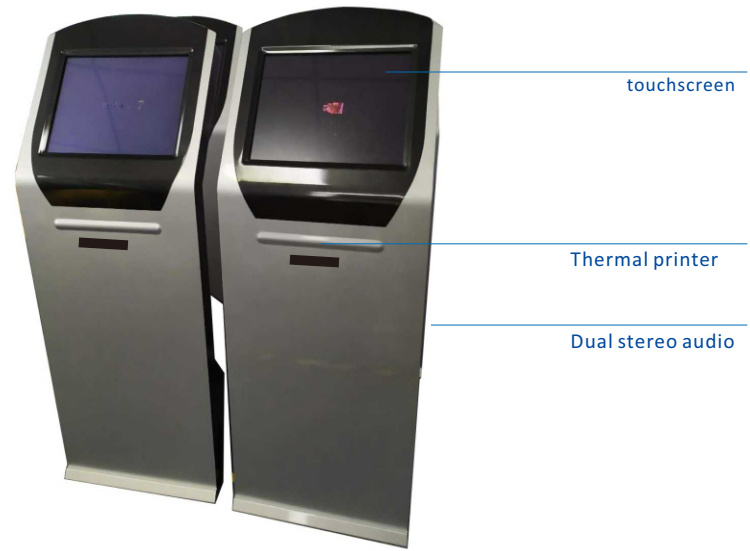

## Q1

### Applications

- Internet kiosk
- Information kiosk
- Queue kiosk
- Map kiosk

### Features

- Waterproof touchscreen;
- Mobile on Desktop(MoDT) industrial computer(IPC)
- All steel anti graffiti enclosure
- 12V DC single power supply

touchscreen

Thermal printer

Dual stereo audio

### Component/function layouts

### Specifcations

| Model Name            | Q1                                                                                                                                                                                                                                                                                          |
